

## How-to video: Feature Record Review

Posted on Dec 12, 2012, Posted by [Catherine Constantinides](#) Category [Product Management](#)

This video covers how to use the Feature record within FeaturePlan™. This record is used to define the goal and intent of the functionality that best solves the identified market problem. It can eventually be used in Roadmaps as well to communicate to customers, sales and others on what features are coming out.
